

Odd Numbers

Slapstick Pop
Mark Oblinger

Intro/Outro

B^b F

Groups of num - bers are eve - ry - where. E - ven num - bers come in pairs. Odd num - bers mean one is left out. With -

B^b B^b G Cmin F B^b

out a part - ner, an odd's a - bout.

Verse

B^b F

1. One tree stands in the mid-dle of the room. What a beau - ti - ful view! With - out a part - ner, it's all a - lone. Yes,

B^b B^b G Cmin F B^b

one is odd. It's true!

Verse 2

3 boots stomp through the snow.
Oh, look at them go!
Is 1 left over when you pair them up?
Yes! 3 is odd. Ho, ho!

Verse 3

5 cars speed around the track.
They are racing so fast!
Is 1 left over when you pair them up?
Yes! 5 is odd. Don't crash!

Verse 4

7 mittens keep hands so warm.
That's just what they're for!
Is 1 left over when you pair them up?
Yes! 7 is odd. Do more!

Verse 5

9 dogs pull a sled through snow.
Zip, zoom, off they go!
Is 1 left over when you pair them up?
Yes! 9 is odd. Now you know!

Verse 6

1, 3, 5, 7, or 9.
If you see numbers that end in
1, 3, 5, 7, or 9.
An odd number is your friend.

Now look for the odd numbers in front of you.
