

# Siren Salamander

World  
Mark Oblinger

## Verse

1. Si - ren sal - a - man - der, slim - y and brown, sat by the wa - ter, wor - ried he might drown. A - long came a spot - ty lit - tle mud - pup - py. She sang, "Don't wor - ry. You have gills to help you breathe!"

Chords: A, D, Bmin, E, To Coda, A, E

## Chorus

Am - phib - i - ans hatch from jel - ly eggs. Am - phib - i - ans, as they grow, their bod - ies change. They live in the wa - ter and on land. With smooth, slim - y skin, they're am - phib - i - ans. Am - phib - i - ans. Am - phib - i - ans.

Chords: A, D, Bmin, E, A, E

### Verse 2

Amphibians eat more than just bugs,  
like snails and spiders and even slimy slugs.  
They eat mice and snakes, worms and more,  
and other amphibians and even birds that soar!

### Chorus

### Verse 3

There are many kinds of amphibians,  
like newts, salamanders, and caecilians.  
So are frogs and toads, and did you know,  
they all start as tadpoles. Just watch them grow!

### Chorus

## Breakdown

Can you move like an am - phib - i - an? Wig - gle like a tad - pole! Can you move like an am - phib - i - an? Jump like a frog!  
Can you move like an am - phib - i - an? Crawl like a sal - a - man - der! Can you move like an am - phib - i - an? Hop, toad. Hop!

Chords: N.C., E

### Verse 4

Siren salamander, slimy and brown,  
sat in the water. He knew he wouldn't drown.  
Along came a spotty little mudpuppy.  
She sang, "It's nice we have gills to help us breathe!"

## Coda

Am - phib - i - ans. Yeah, am - phib - i - ans. Am - phib - i - ans. Yeah, am - phib - i - ans.

Chord: A
