A Quarter

Verse 2

All US coins are measured in cents. A single penny is worth one cent. Quarters are twenty-five, twenty-five cents! Quarters are twenty-five, twenty-five cents!

Verse 3

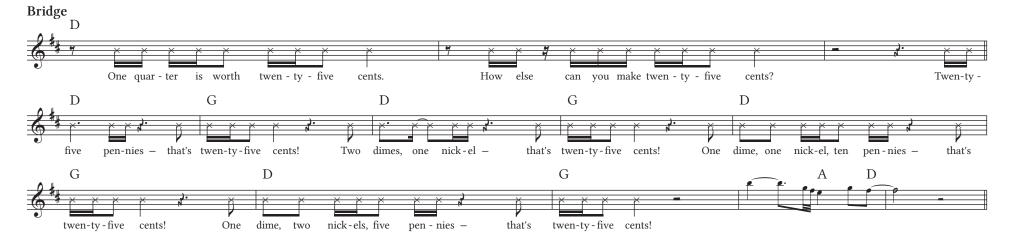

Quarters are round, and quarters are silver. Nickels are big, but quarters are bigger. Quarters are twenty-five, twenty-five cents! Quarters are twenty-five, twenty-five cents!

Verse 4

On their sides, quarters have thin ridges. They are like dimes all around their edges. Quarters are twenty-five, twenty-five cents! Quarters are twenty-five, twenty-five cents!

Verse 5

On the front of a quarter is George Washington. He was the first president of our nation. Quarters are twenty-five, twenty-five cents! Quarters are twenty-five, twenty-five cents!

Verse 6

Quarters are worth one-fourth of a dollar. That means a dollar equals four quarters. Quarters are twenty-five, twenty-five cents! Quarters are twenty-five, twenty-five cents!

Verse 7

Quarters are coins, and coins are money. So are nickels and dimes and copper pennies. Quarters are twenty-five, twenty-five cents! Quarters are twenty-five, twenty-five cents!
