## Verse

A E A A E A A E A

1. Cat - fish knew that he was dif - ferent. The oth - er fish called him names. He was big, and he had

whisk - ers, and his skin was not the same.

## Verse 2

Schools of fish all swim together.  
They all look the same.  
With no teachers, math, or recess,  
safety in numbers is their game.

## Chorus

E A E A D A

Is that a fish? How can you tell? Does it live in wa - ter and have scales? Do a tail and fins help it to swim? Do

E E7 A E A A E A

gills let it breathe ox - y - gen? Yes! That's a fish!

## Verse 3

Some fish live in salty water,  
oceans where they swim free.  
Others live in rivers, lakes, and ponds,  
or aquariums for us to see.

## Verse 4

Fish eat what's in the water,  
wherever they may live,  
plants or insects, worms or frogs,  
fish or shrimp, or pollywogs.

## Chorus

## Bridge

E D A E D A

Can you wig - gle your tail? Can you splash your fins? Can you swim in the wa - ter? Do it all a - gain!

E D A E D A

Can you wig - gle your tail? Can you splash your fins? Can you swim in the wa - ter with your fish - y friends?

## Verse 5

Catfish was a different fish.  
He was happy without scales,  
but just like his friends, he had fishy parts  
like gills and fins and a tail.
