

Circle: A Cookie or the Sun in the Sky

Folk
Wes Schuck

Chorus G C G D G D C

Cir-cles all a-round us, and cir-cles are round.

Verse C G D C G D C

1. A cir-cle is the sun up in the sky shin-ing down as we play out-side, and it's the ball we kick up high.

Verse 2

A circle is the cookie that you just ate.
It's the roundness of your plate,
and the clock that says it's getting late.

Chorus

Verse 3

A circle is a snowman's eye,
a snowball for a snowball fight.
And a puck sliding across the ice.

Spoken

Want to draw a circle? It's easy.
Just put a dot in the middle of your paper.
Draw a line that curves around that point.
Keep going until the ends of the line meet!

Verse 4

A circle is the number zero.
It's the small letter o.
Even Earth is a circle, you know!

Chorus
