

Circles and Crescents

Kindie
Emily Arrow

Verse

1. First, draw a cir - cle. Make it round and big. A - round the plan - et, go and add some rings.

Then you will need cres - cent moons or - bit - ing. In the back - ground draw bright stars twin - kling.

Interlude

Chorus

With cres - cents and cir - cles we can draw man - y things, like big round plan - ets with col - or - ful rings. With
cres - cents and cir - cles we can draw man - y things, like ro - bots and al - i - ens and space - ships zoom - ing.

Interlude

Verse 2
Now, draw an oval. Make it long and thin.
Add eyestalks and oval eyes to the alien.
Next draw legs and feet, arms and waving hands.
Then add a crescent mouth and name it Stan or Jan!

Interlude

Chorus

Interlude

Verse 3
Draw a half circle to start the spaceship.
Connect its ends, and add an oval around it.
Add some flaming rockets, so it can fly up high.
You can even put the alien inside.

Interlude

Chorus

Interlude

Verse 4
Now, draw an oval to start the robot.
Add a half circle and a square on top.
Give it two arms, two antennae, two eyes.
Then add crescent claws and some blinking lights.

Interlude
