

From Caterpillar to Butterfly

Pop
Steven C Music

Verse

1. A lar - va hatch - es from a but - ter - fly egg. The young in - sect looks like a worm with legs.

You may al - so call it a cat - er - pil - lar, this bug that eats and eats, grow - ing larg - er.

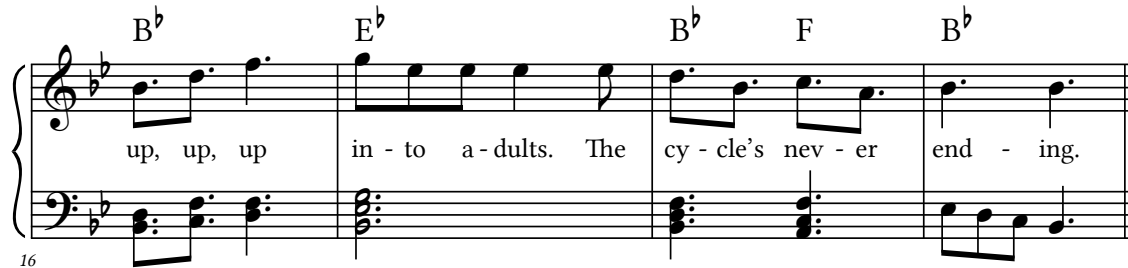

6

Chorus

There's a cy - cle of life for all liv - ing things. But - ter - flies be - gin as cat - er - pil - lars and then start grow - ing

11

up, up, up in - to a - dults. The cy - cle's nev - er end - ing.

16

Verse 2

Then in a chrysalis attached to a leaf,
it enters the pupa stage and goes to sleep.
A metamorphosis will happen inside,
and out will pop a wonderful surprise.

Chorus

Verse 3

What crawls out doesn't look like what crawled in.
The butterfly has large colorful wings.
As an adult, it flies off to find a mate,
and soon there will be more butterfly eggs.

Chorus (2x)
