

From Seed to Flower

Rock
Steven C Music

Verse

1. This ti - ny seed won't stay ti - ny much more. It ger - mi - nates when spring show - ers pour.

The seed starts to grow, reach - ing down with its roots. A seed - ling sprouts leaves, and up - wards it shoots.

6

Chorus

There's a cy - cle of life for all liv - ing things. Flow - ers be - gin as seeds and then start grow - ing up, up, up

11

so col - or - ful. The cy - cle's nev - er end - ing.

16

Verse 2

Adult plants grow buds,
hiding colorful surprises.
They bloom into flowers
of all shapes and sizes.

The flowers' bright colors
attract buzzing bees,
bringing pollen, which some
plants need to make seeds.

Chorus

Verse 3

Some seeds spread by
floating through the air.
Others are eaten by birds or
get stuck in hair.

When the seed has found
a nice place on the ground,
it will sleep until spring,
when rains pour down.

Chorus (2x)
